Led by senior leaders and practitioners in Singapore's financial services industry, the Certified Compliance Officer programme is designed for those aspiring to roles and career pathways in Compliance in financial services. It is also suitable for those in operational risk and those in the first line of defence providing compliance and risk control support to businesses.

The content addresses core, critical and forward looking, cutting edge compliance disciplines, allowing participants to acquire technical skills and competencies which also lead to a nationally recognised IBF certification in each of Regulatory Compliance, Financial Crimes Compliance and/or Compliance Analytics job roles.

Curriculum

The curriculum features Compliance Risk, Culture & Strategy, Regulatory and Financial Crimes Compliance, and Compliance Analytics among others. The interactive learning environment enabling engagement with senior leaders and peers, with extensive use of real life case studies and a practice lead approach ensure that participants will be equipped with knowledge and tools to enhance compliance practices, mitigate risks, promote ethical behaviour and sustainable business practices.
